<tr>
<td><strong>JOURNAL ARTICLE: FROM A DATABASE</strong>&lt;br&gt;Do not include a period after the URL or DOI number.&lt;br&gt;APA rules do not require a retrieval date for electronic sources, unless they are likely to change. Many MC instructors want to see a date, so the format is included here for articles without a DOI number.&lt;br&gt;APA rules ask for the URL of an electronic source, but many MC instructors prefer the name of the database.</td>
<td><strong>DOI number</strong>&lt;br&gt;Last Name, First Initial(s). (Year).&lt;br&gt;Title of article. <em>Title of Journal,</em> Vol.(Issue), Page(s). doi: number</td>

### References

### General Information:

- **Electronic resources**: If the URL or DOI needs to be put on more than one line, break it after a double slash or before any other mark of punctuation; do not add a hyphen. Do not add a period.
- **Alphabetize your reference list** by the first word of the citation (usually the author's last name).
- **Double space all of the citations** on your reference page. Indent the second & following lines of the citation 5-7 spaces.
- **Only capitalize the first word of the document title (and proper nouns)**. If there is a colon, only capitalize the first word after the colon, and any proper nouns.
